

CEDERBERG

2019

**ASTROPHOTOGRAPHY AND LANDSCAPES
OF THE OP DIE BERG REGION**

**PRESENTED BY:
KYLE GOETSCH & JON KERRIN**

PHOTO TOUR

The Cederberg region is only two hours from Cape Town and yet the landscape is completely different: wilder, warmer with a raw, dramatic beauty. This, combined with minimal light pollution for astrophotography, is why we have chosen this region for our next photo tour.

The area we will be staying in has amazing dams and waterways, breathtaking rock features, and is situated up on the side of a valley allowing for amazing views over the fruit orchards and beyond. We are very excited for this tour and look forward to showcasing the beauty of this region.

KYLE GOETSCH

JON KERRIN

Having both pursued separate careers in academia, Kyle and Jon left their jobs in research to pursue a love for the outdoors and capturing the beauty this planet has to offer.

Over a decade of combined knowledge in landscape photography, and a passion for teaching convinced the two of them to use their combined skills and experience to show others the joy of photographing nature.
